

Song: The Big Halt

Listen please, you gypsies, Roma, nomads, and vagrants
A law has been decreed,
It is now illegal to roam the country as you please

We are just trying to help you
It is time to settle now
We can help you learn the language
You can even write it down

Listen please, you gypsies
The Big Halt

Listen please, you gypsies, Roma, nomads, and vagrants
A law has been decreed,
It is now illegal to roam the country as you please

It's all for your own good
Get your children into school
Let them be like the other children
Not learn to thief and steal

Listen please, you gypsies
The Big Halt

It's time to call a big halt
Lock the gates on all lanes
Slash the tyres of vardos
They have themselves to blame

Listen please, you gypsies
The Big Halt

Dredge the lanes for hawkers
Scour the fields for camps
Listen for their language
Round up these gypsy tramps

Listen please, you gypsies
The Big Halt

Listen please, you gypsies, Roma, nomads, and vagrants
A law has been decreed,
It is now illegal to roam the country as you please
